

# STOP

## Discrimination Against Children with Autism.

Protect the rights of our autistic children to receive *proven* evidence-based treatment. Do not support autism bills that take away the rights of Parents to get the ABA treatment children *need*.

Do not support autism bills that partner DDS and "one" Regional Center and their "task force" members to decide the future of your child. That decision should be in the hands of parents.

Contact your California local senate & assembly member leaders. Separate is *not* equal.

Autism Reform Now.
